CUSTOM MULTI-MEDIA PROGRAMS

CUSTOM MICROSITES / RESOURCE CENTERS

Frontline has years of experience developing digital assets geared toward healthcare professionals. Specifically, custom microsites often focus on a key therapeutic area to highlight your product's value to your target audience. We design, develop, and build your interactive, multimedia site to be hosted via your URL or one provided by Frontline. The site is accessible via multiple platforms - including mobile - and typically includes MLR-approved and peer-reviewed content.

CUSTOM WEBCASTS / VIDEOS / AUDIOCASTS

We develop branded and unbranded landing pages with audio/video/webcast content conducive to your educational message. The program features KOL interviews on topics of relevance (e.g. disease state awareness) and can be developed as a series if warranted. Sponsors can repurpose content in a supplement or as assets for eDetailing. These educational messages are accessible via print, web, mobile and tablet.

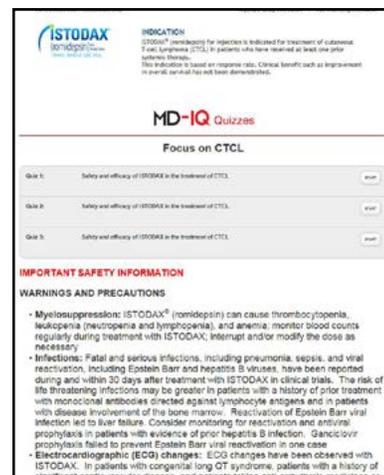

CUSTOM CLINICAL QUIZZES

Engage HCPs you wish to target by sponsoring a brief self-assessment study guide. These clinical challenges test HCP knowledge vis a vis their peers while providing a fun, learning environment to showcase your message. All questions are on-label and housed on a branded landing page - with participant scores and new question alerts. Analyses of the answers identifies HCP-specific learning gaps (and subsequent follow-up if desired).
