

***The National Kidney Foundation Names Clinician Reviews® Recipient
of the 2018 Nostradamus Award***

~ Recognizing the Expert Advice Provided by “Renal Consult” ~

Parsippany – November 30, 2017 – Frontline Medical Communications today announced that its journal, **Clinician Reviews** (CR), dedicated to nurse practitioners and physician assistants, has been named recipient of the 2018 Nostradamus Award.

Annually, National Kidney Foundation’s **Council of Advanced Practitioners** (CAP) presents this award to an individual, group, or organization that, through forethought and vision, recognizes, supports, and promotes the contributions of Advance Practitioners in nephrology. **Clinician Reviews** is being recognized for its Q&A feature **Renal Consult**, which provides expert advice to help clinicians address the complexities of renal diseases.

“**Clinician Reviews** joins a list of outstanding winners, including nephrologists, a United States senator, and others who have recognized CAP’s worth and supported its advancement,” said Karen Clemments, Editorial Director of clinical publications and Editor of **Clinician Reviews**. She continued, “We are excited to be among an esteemed group of past recipients for our ongoing endeavors to educate advanced practitioners in support of their clinical, professional needs in preventing, diagnosing, and treating kidney diseases.”

In announcing the award, Ms. Clemments noted that **Renal Consult** aligns with CAP’s goal to improve patient outcomes by enhancing advanced practitioners’ knowledge base and skills that will have a direct impact on clinical practice in a variety of settings. **Renal Consult** appears quarterly in print and online in CR’s robust, interactive website, digital edition, and mobile app.

The National Kidney Foundation is the leading organization in the United States dedicated to the awareness, prevention, and treatment of kidney disease for hundreds of thousands of healthcare professionals, millions of patients and their families, and tens of millions of Americans at risk. **Clinician Reviews** will be recognized during an awards luncheon at the NKF 2018 Spring Clinical Meeting in April.
